# Student Budget App

Terminal App Assessment | T1A3 (Coder Academy), 2021

By Nga Rampling

---

# What is it?

- ❖ App << terminal (Ruby programming language)
- ❖ Gems (colorize)
- ❖ Error Handling
- ❖ Features (Method, While Loop, Class, EXTRA-json)
  - User Input
  - Output of list
  - Output of chunk of text
  - Select Options for navigational purposes
  - \*\*\*Simple, Easy to understand Code Structure\*\*\*

# Student Budget App

**What does it do?**

- **What problem does it solve?**  
Ensuring you don't fall into a pit of debt and can't get out!
- **Audience**  
Fresh young adults, newly to independence and finance, and wants to enjoy life! Not be controlled by debts!
- **Evaluates and provides financial guidance!**  
Get instant expert advices straight from your app

# User Input

Takes input data, stores away for future use

```
#Initialising Questions and Input
puts "What is your name?"
user_name = gets.chomp

def input_budget(name)
  puts "Hi #{name}, what is your expected income this week?"
  income = gets.chomp.to_i
  puts "What is your total expenses this week?"
  expenses = gets.chomp.to_i
  puts "Enter the amount of savings you'd like to achieve in this week's budget"
  savings = gets.chomp.to_i
  return income, expenses, savings
end
```

# Output

```
Please review the information you have entered:  
This week's income is $300.  
This week's total expenses is $150.  
You'd like to add $20 to your savings account.  
Enter 1 to save & calculate budget  
Enter 2 to start over
```

Feature No. 2  
Outputs - Listing

```
puts "Please review the information you have entered:".green  
puts "This week's income is ${weekly_budget[0]}."  
puts "This week's total expenses is ${weekly_budget[1]}."  
puts "You'd like to add ${weekly_budget[2]} to your savings account."  
  
#2nd feature - Listing all entries and asking user to review.  
#Present user with options to select.  
puts "Enter 1 to save & calculate budget"  
puts "Enter 2 to start over"
```

Feature No. 3  
Selection of Options

# Selecting Options

```
Enter 1 to save & calculate budget
Enter 2 to start over
2
Hi Nga, what is your expected income this week?
450
What is your total expenses this week?
150
Enter the amount of savings you'd like to achieve in this week's budget
30
```

*Would be good to use `tty=prompt` here*

*Allows user to have options and navigate the app*

```
#2nd feature - Listing all entries and asking user to review.
#Present user with options to select.
puts "Enter 1 to save & calculate budget"
puts "Enter 2 to start over"

input = gets.chomp.to_i
if input == 1
  save_calc_budget(weekly_budget[0], weekly_budget[1], weekly_budget[2])
elsif input == 2
  weekly_budget = input_budget(user_name)
else
  puts "Please enter the number 1 or 2 only"
end
```

---

# Evaluation & Output

- Takes the values from the user's input and puts them into a calculation logic process
- Evaluates the return (Consults)
- Professional financial advise
- EXTRA
  - Store users weekly results
  - Graph it out for monthly / yearly report

# Challenges:

## Personal Challenges:

- So many NEW materials
- Learn and apply the new materials quickly
- Overthink
- Catch up on my Learning Materials. May have watched the same video repeated.

## App Building Challenges:

- So far... Classes & Objects: Linking up with arguments
- When to use:
  - Method
  - Class
  - While Loop
-

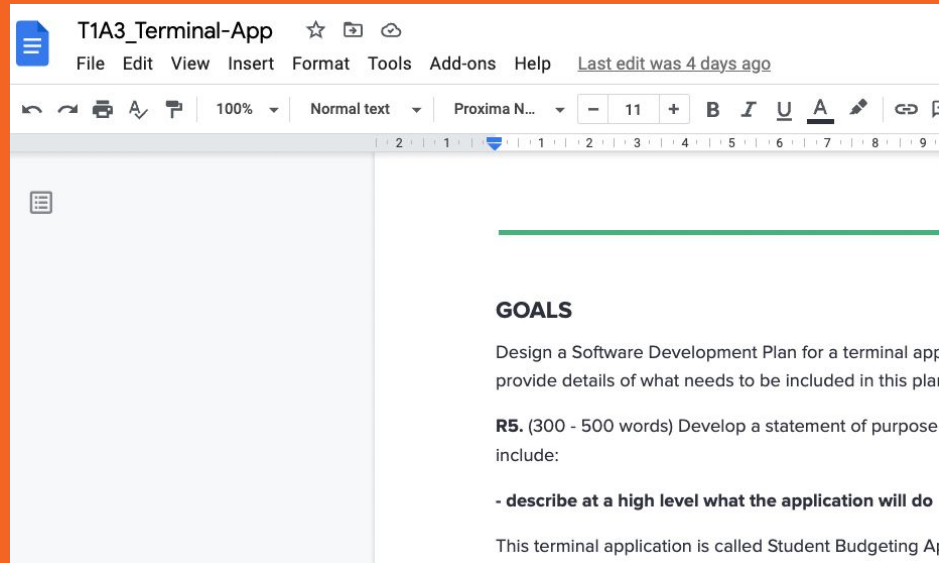

---

# What is unfinished

- Gem > colorize
- Gem > tty-prompt
- Error Handling (User Friendly)
- Get the class to work!
- Compiling

# Writing Documentation

# Trello Board - Project Management

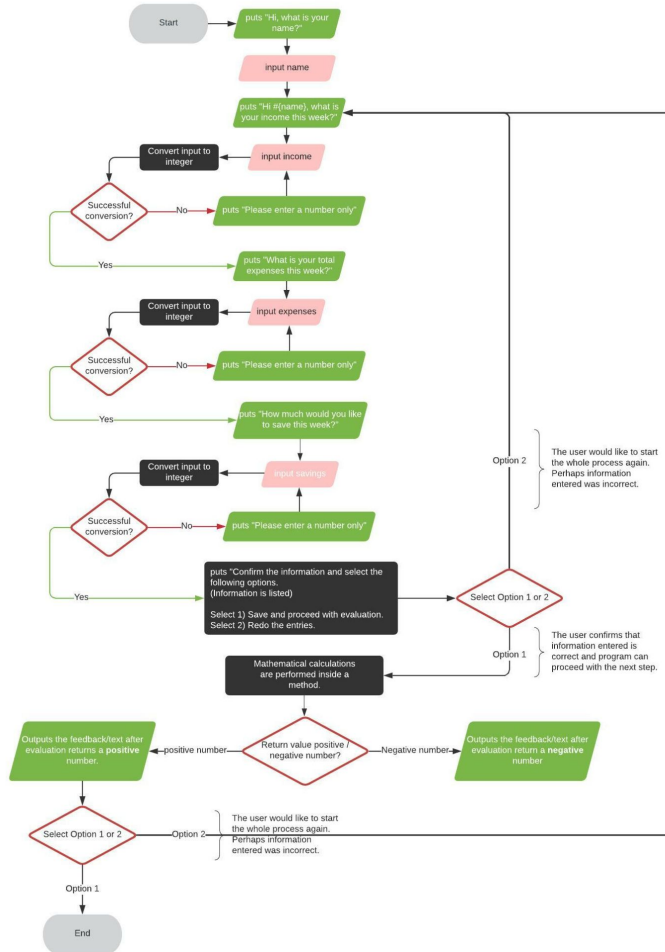

The image shows a Trello board for project management, organized into four columns: **To Do**, **Doing**, **Testing**, and **Done**.

- To Do Column:**
  - Card: "Are you doing at least 20 git commits??" with a due date of 13 Dec - 14 Dec and 1 comment.
  - Card: "CODE 3rd feature (Output Recommendation)" with a due date of 14 Dec - 15 Dec and 0/6 progress.
  - Card: "CODE EXTRA feature - recommendation list of items that can be purchased." with a due date of 15 Dec - 18 Dec, 0/6 progress, and 1 comment.
  - Card: "Script to RUN the app" with a due date of 14 Dec - 16 Dec and 0/2 progress.
  - Card: "CODE Error handling" with a due date of 17 Dec - 17 Dec and 0/4 progress.
  - Card: "Executable file" (no due date or progress shown).
- Doing Column:**
  - Card: "[Example task]" (no due date or progress shown).
  - Card: "README.md Document" with a due date of 11 Dec - 17 Dec and 1/8 progress.
  - Card: "Flowchart (Lucidchart)" with a due date of 11 Dec - 15 Dec and 6/11 progress.
  - Card: "Slide Deck Presentation" with a due date of 14 Dec - 16 Dec and 0/17 progress.
  - Card: "CODE 2nd feature (Output List of answers)" with a due date of 13 Dec - 14 Dec and 0/6 progress.
  - Card: "CODE 1st feature (Input & Questions)" with a due date of 12 Dec - 14 Dec and 0/6 progress.
- Testing Column:**
  - Card: "+ Add a card" (no due date or progress shown).
- Done Column:**
  - Card: "[Completed task]" with a due date of 11 Dec - 18 Dec and 0/5 progress.
  - Card: "+ Add a card" (no due date or progress shown).

A piece of grey tape is stuck to the right side of the board, partially covering the "Testing" and "Done" columns.

  - Legal Advice

Tip

*A man without ethics is a  
wild beast loosed upon  
this world.*

Albert Camus

(20th Century French Philosopher)

## MORAL RELATIVITY

RELATED TO MORAL RELATIVISM, IT STATES THAT ETHICS BECOME SUBJECTIVE ONLY WHEN YOU APPROACH THE SPEED OF LIGHT.

THAT IS, IT'S OK TO BE SELF-SERVING, STEAL, AND ~~MURDER~~ AS LONG AS YOU'RE GOING REALLY, REALLY FAST.

(NOTE: THIS IS WHY RAP SOUNDS BETTER ON THE HIGHWAY AT 90 MPH)
